

ACCESSORIES

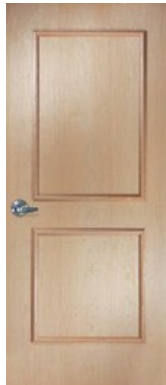

Affordable Options from VT

With options such as factory-installed glazing, applied mouldings and factory-installed louvers available from VT Industries, you can achieve the look you want with the convenience you expect. VT eliminates the hassle of coordinating and handling lite kits and louvers on site so your doors arrive ready-to-hang. Regardless of the options you choose, our standard offerings are a good choice or if you have something special in mind, we'll work with you to meet your needs.

Factory-Installed Glazing

- Choose from several profiles of wood mouldings to match your door face veneer
- Beige powder coated, painted to match or veneer wrapped metal vision panels available in standard or custom sizes and shapes
Specify glass type and thickness, from tempered glass to privacy lite kits

Surface-Applied Mouldings

- Select from an array of standard moulding profiles or specify a custom design
- Wood species available to match face veneers
- Mouldings stained to match factory finished doors

Factory-Installed Louvers

- Specify louver type and size
- Metal louvers available primed or painted and can be factory installed
- Wood louvers available for non-rated doors
Fusible link louvers meet 45-, 60- and 90-minute fire ratings
