

3MM HDF IN LIEU OF 1/16" HARDWOOD CROSSBAND IN  
HPDL & WOOD VENEER DOORS

---

VT is continuously looking for alternative material to use in our doors enabling us to furnish our customers with the best architectural grade high pressure decorative laminate and wood veneer doors in the industry.

3 MM HDF Crossband allows VT to produce 5-ply HPDL and wood veneer doors with a consistent substrate that has a smooth flat surface with omnidirectional strength.
