

SLAT LOUVERS IN DOORS

To ensure privacy in rooms that have doors with slat louvers, the louvers will be installed per the following procedure unless advised otherwise. Doors with slat louvers are swing sensitive. RH or LH Swing Doors: The high edge of the slat on the hinge face of the door and the low edge of the slat on the stop face of the door. RHR or LHR Swing Doors: The high edge of the slat on the stop face of the door and the low edge of the slat on the hinge face of the door.
