

Project Spotlight

BANK OF BUFFALO: BUFFALO, NY

PROJECT PROFILE:

Vt Industries Commercial Operations division recently completed a stunning job featuring five different countertop materials at the Bank of Buffalo Tower in Buffalo, NY. VT partnered with local contractor, Nouvas Building Services to source, fabricate, and install countertops for the bank's reception area, breakroom, coffee bar, window sills, and the executive assistant desk. The combination of warm browns, muted greys, dramatic taupe patterns blended nicely in the new office spaces with the existing dark wood working.

With the completion of this project, The Bank of Buffalo employees and customers alike can both enjoy the enhanced appearance these statement surfaces provide for many years to come.

PROJECT MATERIALS:

- Adena - Wilsonart Quartz (window sills)
- Mystic Gray - MSI Quartz (reception area)
- Babylon Gray - MSI Quartz (executive assistant desk & coffee bar)
- Sangda Falls - Wilsonart Quartz (breakroom)
- Concerto - MSI Quartz (window sills)

All Stair Treads - Italian Quartz, Acciaio

VIP Drink Rails - Italian Quartz, Tropic Brown
